Description of Findings:
 The review of EETRK data indicated that Genesee County does not meet the 1.3% target for children birth to age one with an IFSP. June 2007 data indicates that Genesee County is at .92%.

Evidence of Change (*correction + improvement*):
 1.3% of children, birth to age one, will have IFSP's by November 2008.

Tasks (strategies/methods/practices)	Justification for tasks/activities	Person responsible for task	Task due date	Task documentation/ products	Task evaluation/ measurement

<input type="checkbox"/> Supervision List specific tasks/activities here	Explain how this task relates to evidence of change	**Select Level** Insert name and title		List items that substantiate change	List method(s) and measure(s) of task follow-up
<input checked="" type="checkbox"/> Collaboration Meet in small groups with agencies that are involved with infants and their families to create an awareness of Early On.	With the exception of DHS referrals of infants to Early On are minimal.	Early On coordinator Jennifer Lee ,Mary Rickard, teacher consultant, various service coordinators, and LICC representatives from the public agencies.	6/1/2008	Small group meetings with agencies identified by the LICC will be held. Public Awareness materials, such as developmental wheels, magnets, and sticky notes, and referral forms will be provided. Minutes from the LICC meetings will indicate the contacts were made and the materials were distributed.	Quarterly review of EETRK data indicates an increase in referrals from the agencies identified after the small group meetings have been held.
